ABOUT ME

Software Engineering graduate with a strong interest in front-end development and modern technologies. Passionate about creating user-friendly digital solutions and continuously developing technical skills. Seeking a first professional opportunity to apply my knowledge, gain industry experience, and contribute to innovative IT projects.

EDUCATION

BEng (Hons) Software Engineering (Top-Up) **2025 - 2026**

London Metropolitan University, United Kingdom

- Award Class: First Class Honours

Pearson BTEC Level 5 Higher National Diploma in Computing (Software Engineering) **2024 - 2025**

ESOFT Metro Campus, Sri Lanka

- Grade: Distinction

Assured Diploma in Information Technology (DITEC) Pearson Assured Organization **2022 - 2023**

ESOFT Metro Campus, Sri Lanka

- Grade: Merit

Assured Diploma in English (DIE) Pearson Assured Organization **2022 - 2023**

ESOFT Metro Campus, Sri Lanka

- Grade: Merit

GCE A/L Examination **2021**

Swaranamali Girls' College, Kandy

GCE O/L Examination **2018**

Swaranamali Girls' College, Kandy

SKILLS

- **Programming**: Java, Python, C#, PHP, JavaScript, SQL
- **Web Development**: HTML, CSS, ASP.NET MVC, Full-Stack Development
- **Databases**: MySQL, Microsoft SQL Server, DBMS
- **UI/UX & Design**: UI/UX, Wireframing, Website & Logo Design
- **Tools**: Visual Studio, VS Code, XAMPP, phpMyAdmin, PyTest, Pandas, Unity, Cisco Packet Tracer
- **Software Engineering**: OOP, MVC, Authentication, Role-Based Access Control, CRUD, Database Connectivity
- **Networking**: VLANs, Subnetting, Firewalls, IoT & ERP Integration
- **Data & Testing**: Data Analysis, Automated Testing, Data Validation, Reporting
- **IT & Research:** Excel, Google Sheets, PowerPoint, Google Slides, Documentation, Report Writing, Data Entry, Research & Survey Analysis
- **Soft Skills**: Communication, Leadership, Problem Solving, Analytical Thinking, Teamwork, Time Management, Adaptability, Attention to Detail, Quick Learning

ACADEMIC PROJECTS/ RESEARCHES

Next-Gen Diet Planning System | Oct 2025 – Apr 2026

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Python, Flask, Google Gemini API, PHPMailer, FPDF, AJAX, HTML5 Canvas API, XAMPP, phpMyAdmin

- Developed an AI-assisted diet planning platform for users, nutritionists, and administrators.
- Implemented meal planning, BMI tracking, progress monitoring, chatbot assistance, and consultation management.
- Created responsive dashboards and secure user authentication with role-based access control

Centralized Sales Distribution Management System (ISDN) | Jan 2026 – Feb 2026

Technologies: SQL Server, HTML, CSS, JavaScript, Bootstrap, XAMPP, PHP

- Developed a distribution management system for managing inventory, orders, invoices, payments, and logistics.
- Implemented real-time stock tracking, order processing, automated invoice generation, and payment management.
- Designed reporting dashboards to monitor sales performance and operational efficiency.

GreenLife Organic Store Management System | Jan 2026 - Feb 2026

Technologies: C#, .NET Framework, Windows Forms, SQL Server, Visual Studio

- Developed a desktop-based organic store management system with customer and admin portals.
- Implemented product management, shopping cart, order processing, stock monitoring, and reporting features.
- Integrated SQL Server database for secure data storage and efficient inventory management.

UniManage – University Course Management System (UCMS) | Mar 2026 – Apr 2026

Technologies: C#, ASP.NET Core MVC, Entity Framework Core, Microsoft SQL Server, HTML5, CSS3, JavaScript, jQuery, Bootstrap 5, FontAwesome, SweetAlert2, Gmail SMTP API, SSMS, PowerShell

- Developed a university management system for Students, Lecturers, and Administrators with role-based access control.
- Implemented course management, enrollment, assignment submission, grading, and reporting features.
- Designed dashboards for different user roles to improve academic administration efficiency.

Evaluating Duolingo in Enhancing Vocabulary in English Speaking Skills among Diploma Students | Dec 2024 – Jan 2025

Technologies: Quantitative Research, Survey, Data Analysis, Spss, Microsoft Word, Microsoft Excel

- Investigated practical applications of AI in online banking systems at Sampath Bank.
- Analyzed system limitations, performance, and customer satisfaction impact.
- Proposed improvements to optimize AI integration in banking operations.

LANGUAGES

- **Sinhala** | Native Proficiency
- **English** | Working Proficiency
